

# ALUMINIUM FABRICATION AND WELDING

Starweld Engineering is one of the UK's leading industrial aluminium fabricators and welders with over 70 years' experience building high quality fabrications.

Our Sheffield site houses modern rolling, forming, bending, cutting and welding technologies allowing us to take your design from aluminium plate or extrusion to finished, machined and painted fabrication.

With dedicated storage areas, fabrication and welding bays, together with the use of various welding techniques, Starweld have the experience and capacity to work with all grades of aluminium. We offer full testing and traceability of materials and can supply documentation packs with every job in accordance with ISO 9001: 2008.

Aluminium work we regularly undertake includes:

- Balustrades
- Canopies
- Handrails
- Pipe and tube welding
- Precision Machining
- Batch production of components
- Cutting, drilling, rolling, forming
- Aluminium wheel repair
- Structural aluminium
- Storage containers and vessels
- Repair of aluminium cylinder heads
- On site welding
- Plant and machinery repairs
